## CalBEM Resource Hub Document Request Policy

Do you have a suggested document to join the Resource Hub? We are happy to consider resources with informational content related to California-specific BEM use cases.

Follow the steps below to submit a request:

1. Submit a request by sending an email to the CalBEM Planning Team at [info@calbem.org](mailto:info@calbem.org). Include or link the suggested document, and a note about why the document is a good fit for the CalBEM Resource Hub page.
2. The Planning Team will review the request and respond with approval if it's appropriate for CalBEM to host the document.

*The Planning Team may defer the decision to the CalBEM Steering Committee where appropriate.*
